

Business Coaching for Designers and small businesses.....Call for a complimentary 20 minute phone consultation

When I sold new homes I hired my first business coach. Amanda Johns. She helped me reach the top level of the home building company I worked for...during the recession! She helped me reach my goals by holding me accountable and giving me the tools I already had, I just didn't realize it. Years later here I am, now in her position. You see, just when you think you've arrived, you'll stop growing! I can tell you in this past year, I've done things I would have never dreamed of doing! This process has been life changing and a breath of fresh air.

I know how to build businesses and build brands. I can help designers and small businesses reach their true potential, by crafting them into strong sales leaders.

Topics we will cover during our sessions include:

- Charging, Invoicing, & Collecting
- Client Management
- Marketing & Branding
- 10 Step Project Management System
